13. 1. Comment on the instructor's teaching effectiveness and classroom performance.

Text Response

very effective. I learned a lot

She was a very effective teacher, and made sure to provide a good classroom atmosphere.

Professor Knight made the class interesting by using texts like news articles and poems and by showing videos that represented different times in German history.

I enjoyed Dr. Knight's teaching style. She is very laid-back and creates a low-pressure learning environment, which made it easier to focus on and engage with the material.

She taught well

Dr. Knight was very effective in the classroom, and the class was taught in a way so everyone could interact.

Dr. Knight was always well prepared to present the materials in class. She gave lucid instruction and clear examples of all grammatical principals and related them to the course material.

14. 2. Did the instructor stimulate thinking? Did the course make a significant contribution to your education?

Text Response
Yes. Yes.
The instructor did a good job making the class think about the implications of the historical events which unfolded. She also required us to learn outside of just German including other subjects such as History and Sociology. The course educated me dramatically in the case of German.
Yes, I learned a lot more about German modern history.
This course was one of my favorites that I've taken so far at Wake. It combined my two favorite subjects and introduced me to new perspectives that I was not familiar with before.
Yes it was very educational towards German culture
I would say so
Yep! She was very good at asking stimulating questions - and in German - and we were taught to express complex ideas in a foreign language. Simply amazing!
Yes; Dr. Knight challenged us to think for ourselves on issues that are prevalent to German culture and civilization to express those opinions coherently through speech and writing.

Yes very well.
Yes, through examples and often times stories relating to the subject matter.

Yes, I think so. We learned about concrete historical facts as well as the broader themes they related to.
Yes lots of historical events
yes
Yep. I liked that we listened to her personal interviews. These were very interesting and thought provoking.

16. 4.   Comment on the technology, books, songs, and other materials the instructor used to facilitate learning.

Text Response
Excellent use of all that jazz
I enjoyed how she used sources other then our textbook to provide examples of the cultural atmosphere of Germany from World War II and beyond.
We listened to music (Nationalhymne, etc.), read texts off of Sakai, and watched films in class.
I really liked the variety of types of media used, especially watching films. Sometimes there were some technical issues with movies being available/not available on the Internet but Dr. Knight really didn't have control over that.
She used good videos poems articles and songs
film, poetry, and music were well used
The media Dr. Knight used in class was all relevant and useful for learning about the German culture. I enjoyed the music at the beginning of the semester and how we would look at all forms of media to get insight into the German culture/ history.
I think it was good to have access to German film and music. It left a lasting impression on how German culture works and applied the grammatical principals we learned throughout the year.

17. 5.   How could the course be improved? What did you like most about the course? What did you like least?

Text Response
Uh it's fine the way it is. The movies. Uh nothing.
I believe that the addition of vocabulary quizzes and some grammar quizzes, so as to keep our German skills adequate. I liked the historical aspects the most. I disliked the lack of vocabulary quizzes.
I most enjoyed watching the movies and the student presentations at the end of the year. I think it would be interesting and helpful to do more student presentations throughout the semester.
It could be offered later than 9 am?
I liked the German history we learned about but I think a little less reading could be good or maybe sometimes in english
I enjoy going into more depth with my essays, so if we were to write longer essays and eliminate some of the shorter paragraphs, this could help improve the course. Also, if we were to read a novel in the class, this could be beneficial. Overall, though, I thought the class was well organized and I loved the way Dr. Knight taught the class!
The only thing I would say is that we watched a lot of very long movies over a number of classes. Sometimes I forgot about the plot or crucial elements because of the lapse in class time.
